

## SWIMMING WITH YOUR DOG

### What You Should Know

We want you and your dog to have fun in the pool and stay safe. Here are a few things you must be familiar with before you engage in any pool-based activity.

- Please avoid your dog inhaling the water as this can lead to complications. Should you suspect this has happened please inform the staff immediately.
- Do not allow your dog to drink excessively as this can be very harmful to your dog.
- Do allow your dog to rest a minute after each five minutes of activity.
- **Please discourage your dog from barking.**
- It is your responsibility to inform the staff of any special needs you may have.
- You must be medically fit and well to undertake the pool-based activity with your dog.
- All our staff are trained in human first aid and canine first aid.
- Please make sure we have your current emergency contact details on file.
- Staff are on hand to supervise should you need us.
- Lastly and most importantly have FUN!

**Disclaimer:** We take every reasonable precaution to ensure our users safety. However, all visitors and carers use the facilities at their own risk. We cannot therefore take responsibility for any injury suffered by persons visiting or using the hydrotherapy centre or other facilities on the premises of Oakmede Retreat.

### Declaration

I have read and understood the above information.
